

Kari series

Designed by Michael H. Nielsen, Denmark

Kari is created by danish designer Michael H. Nielsen with focus on elegant proportions, simple details, honest craftsmanship and few, replaceable components in oak and brass. The system is easily assembled using the brass wing nuts and is mounted flush to the wall to create a light and clean expression. The low version is a freestanding piece and can be placed on a wall or as a room divider. Unpretentious, crafted design to fit any interior.

Meet the designer

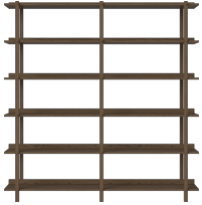

My style is characterized by keeping the focus on the detail and "edge" that separates my designs from the crowd. One of my biggest influences is to register how much diversity there is among people and try to meet the very different needs that it creates. I've always been fascinated by the craftsmanship and the interaction between craftsman and designer. Good design is what gives meaning and value to the people who use it.

Notice

Delivered with wall mount as standard - bolts and plugs not included.

Test and certifications

FSC™ C165134 (Forest Stewardship Council) is an international organisation that advocates for responsible management of the world's forests. FSC-labelled products contain wood materials from forests that meet strict environmental, social and economic standards, helping to protect biodiversity, ecosystems and local communities.

Tested according to the Toxic Substances Control Act - TSCA Title VI - to ensure wood-based materials do not emit excessive amounts of formaldehyde, and that they comply with permitted limits.

EN 16121:2013 Non-domestic storage furniture - Requirements for safety, strength, durability and stability
