

Lucén series

Designed by Ferriani Sbolgi, Italy

Discover the harmony that arises when mixing tradition and contemporary flair. With a perfect Japandi expression, the lamps come in a variety of shapes and sizes, complementing any space with soft luminosity. The design is FSC™-certified and crafted with a lightweight metal frame covered in oak rings and delicately draped fabric.

Meet the designer

The Italian design studio, Ferriani Sbolgi, is driven by experiments and a cooperative approach to the design process where both designers agree on a direction and outline before transforming into new creative designs. Their design language is based on sleek silhouettes and clean stripped-down lines and details, and their products seek to communicate a certain emotion with the viewer and user. Each new design is seen as an opportunity for experimentation, and they ascribe fundamental importance to finding materials and ideas that will add value to their final design. They seek the new, the bold and the different, but always with timeless taste and quality craft in mind. A striking balance achieved in an effortless manner shown in their beautiful work.
