

Sinuate Pendant

Product description

Pendant

Year

2026

Environment

Indoor

Dimensions

Medium	Large
H: 30 cm	H: 40 cm
Ø: 60 cm	Ø: 75 cm

Materials

Japanese Paper & brass or stainless steel

Variants

Brass

Stainless Steel

Cable Length

3 m

Light Source

E27

Max Watt

15 Watt LED

Voltage

220-240V~

Frequency

50/60Hz

Production process

Pendant lamp made in japanese washi paper being held in place by brass/stainless steel fitting. Comes with fabric cord.

Test & certificates

CE Certificate

Packaging dimensions

Medium	Large
H: 45 cm	H: 52,5 cm
W: 64 cm	W: 79 cm
D: 64 cm	D: 79 cm

Weight

Medium	Large
0,4 kg	0,5 kg

Country of origin

Designed in Denmark, produced in Poland

Cleaning and maintenance

See our website for full care instructions

Sinuate Pendant is a layered paper light that takes shape through tension alone - no glue, no fastenings.

It is made from two sheets of Japanese paper, each cut with small connection holes that slide onto a star-shaped fitting in stainless steel or brass. Once pressed into place, the paper bends into its curved form, creating a soft sculptural silhouette.

The inner layer directs the light downwards, while the outer diffuses it gently across the surface, giving the lamp its warmth and even glow.

Available in two sizes, Sinuate Pendant is delivered pre-assembled and ready to hang.
