INTRODUCING LIFT SIDE TABLE - FUNCTIONALITY MEETS ELEGANCE

Lift Side Table is a versatile and lightweight side table designed to adapt according to your needs. Whether placed beside a sofa, next to your bed, or used as a temporary work station, its height-adjustable function and light weight makes it effortlessly adaptable. A simple press of the button on the tabletop allows it to elevate smoothly, while a gentle push with applied pressure lowers it back down—intuitive and seamless.

The design is as functional as it is striking. The distinctive base construction features an elegant, curved support that extends into a sculptural, stable foundation, lending Lift a visually airy yet solid presence. This unique design detail sets it apart, making it both a practical and artistic addition to any space. Lift Side Table features a sturdy table base in steel and a sleek tabletop, offering a refined and modern expression that seamlessly integrates into any interior.

CONNECTING PEOPLE AND SPACES

Since Normann Copenhagen's foundation in 1999, our ambition has been to challenge conventional thinking and make the ordinary extraordinary through great design.

By combining the craftsmanship, functionality and endurance characterized by our Danish design heritage with modern silhouettes and durable materials, we aim to create original products in a contemporary design that withstand the test of time. We believe in uniting people and spaces across the world and improving the quality of people's lives through the power of great design.

Our products combine functionality and design and accommodate the diversity of needs of modern life in residential and professional interiors alike.
