A Decade of Carrie:
Audo introduces six new finishes and refined detailing for the iconic portable lamp.

Audo presents a renewed expression of the Carrie Table Lamp, Portable, the celebrated design by Norm Architects that has illuminated homes and shared spaces for the past decade.

Introduced in 2016, Carrie quickly became renowned for its distinctive silhouette and practical versatility, pairing a softly glowing opal glass shade with a sculptural base and handle that allows the lamp to move freely between settings, bringing light wherever it is needed.

The latest evolution introduces six carefully considered finishes: Black, Ivory, Golden Brown, Linen Blue, Brushed Aluminium and Bronzed Brass. Each version features leather cord wrapped around the handle, adding warmth and tactility while maintaining the lamp's familiar form.

From the very beginning, Carrie was conceived as a response to the changing ways we inhabit our spaces. Rather than remaining fixed in one place, the lamp was designed to accompany daily life, moving from bedside table to terrace, from bookshelf to dining table with ease.

The cordless design is rechargeable and provides up to ten hours of light when fully charged, making it suited for both indoor and outdoor use. Its warm and balanced glow can be adjusted across three brightness levels.

Over the past decade, Carrie has become one of Audo's most recognisable designs. Its enduring appeal lies in the balance between simplicity and practicality, a lamp that offers both atmosphere and mobility without compromise. With the introduction of these new finishes, Audo continues to build on Carrie's legacy while allowing the design to evolve alongside contemporary interiors.

About the Designer

Founded in Copenhagen in 2008 by Jonas Bjerre-Poulsen and Kasper Rønn, Norm Architects specializes in residential architecture, commercial interiors, industrial design, photography and art direction. The name reflects the studio's emphasis on drawing inspiration from norms and traditions in architecture and design — particularly the Scandinavian design ideology of timeless aesthetics and natural materials and Modernist ideas of restraint and refinement. Guided by these principles, Norm Architects creates designs that unite materials and craftsmanship while embodying beauty, history and, most importantly, timeless simplicity with nothing more to add or subtract. A longstanding collaborator with Audo, Norm Architects helps to drive the evolution of the brand and its products with the same fundamental ethos that guides its own creative direction: a simplicity that carries bigger ideas.
