

Plié Wall Shelves by FROM INDUSTRIAL DESIGN

The elegant wall shelf Plié perfectly complements the modular shelving system Plié. Being distinguished by its sleek design, Plié uses the least amount of material possible folded to create a light weight yet very robust structure. Its simple and architectural design language as well as its timelessness perfectly reflect the character of the design brand UTIL. It adapts to ever-changing interiors, from the contemporary workspace and to private living environments, giving books and small items a subtle and timeless frame.

The Plié wall shelf can be hung as a single shelf or in groups and is easily installed using only two screws. It is available in 8 versatile colours, ranging from bright Ultramarine to more neutral shades and in two lengths with 2, 3 or 4 shelves.

Dimensions

Materials

- Powdercoated aluminium

Colors and Finishes

The Basso is powder-coated with a fine texture

FROM INDUSTRIAL DESIGN

Is a collaboration between Cesare Bizzotto and Tobias Nitsche. Known for developing innovative and forward-thinking solutions while keeping an edge in their aesthetics, the duo met during their masters degree at ECAL, Switzerland, and have been developing industrial products in the fields of furniture and lighting ever since.

Plié, their shelving system design for UTIL, was awarded the German Design Award for Excellent Product Design in 2019
