- Available in different sizes, Woody Shelving provides flexible storage solutions to fit both small and large spaces
- Suitable for a wide variety of private and public environments

WOODY SHELVING DESIGN BY HAY

Woody Shelving is an open storage solution with a minimalistic design that highlights the exposed construction parts. The wooden frame is offered in different finishes and colours, with the shelves in steel or tempered glass options. Woody Shelving's flat-packed design is available in different sizes and can be used as a free-standing shelving system, against a wall, or as a room divider in all kinds of rooms in the home.

Woody Shelving High 2.0 | Almond white shelves | Soaped oak frame

SUSTAINABILITY

At HAY, we believe good design should stand the test of time. That principle shapes the decisions we make – from the materials and suppliers we work with to the certifications we pursue to ensure our products meet recognised standards. We use recycled content where possible, FSC™-certified wood (FSC-C148805), and bio-based foam that helps lower our products' overall carbon footprint. We are also increasing the number of products certified with the EU Ecolabel and the Nordic Swan Ecolabel, reflecting our ambition to make lower-impact choices across our assortment. HAY follows strict regulatory requirements, and most of our products are tested to meet international standards for strength, durability, and safety.
